By [udemy.com](#)

Participations

Hajj Hackathon, 2018 in Jeddah.

Guinness World Records, 2018 in Jeddah.

Saudi Skills, 2017 in Jeddah.

Projects

IOS _ DHA Tracking, 2019

Using [Swift 4] I have developed an App for nurses to keep medical attention on their patients remotely. Saving the effort for the patients by just checking their blood pressure\sugar level at home and submitting the result to the App.

PHP Laravel _ Recommendation System, 2018

Using KNN algorithm. Combining them together I created a recommendation system to help the user finding a similar job to the ones he applied for. Also similar jobs from users who have applied to the same job.

PHP Laravel _ Ticketing System, 2018

Ticketing system, simple web application to handel tickets where the users must (Assign | Update | Close) tickets. plus the ability to comment on the tickets. [eskanticketing.biz](#)
